REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Takashima (US 6352045) discloses an immobilizer system for a watercraft with stop switch body 82, stop switch knob 70, lock plate 54, transponder 58, control section 98 of claim 1, but lacks the writing section of claim. Ormos (US 5506575) and Taknaka (US 6659343) disclose contactless key or IC card systems that may assigned or send data from a key or IC card to another key or IC card but does not teach nor fairly suggest a writing section for writing a regular ID code of a transponder to another transponder in an apparatus wherein when the lock plate is disengaged from the stop switch knob, the stop switch body is activated to allow the engine to stop or be to be in an idle state.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CONTACT INFORMATION

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through
